DES MOINES:

GEO. E. ROBERTS, STATE PRINTER,  
1886.

## INTRODUCTORY.

---

The contents of this volume have been prepared under the provisions of Chapter 165 of the acts of the 20th General Assembly, and a Joint Resolution by the 21st General Assembly. The following are copies of the Act and the Joint Resolution :

### CHAPTER 165.

AN ACT to Provide for the Publication of Names of Ex-Soldiers, Sailors and Marines Residing in Iowa.

*Be it enacted by the General Assembly of the State of Iowa :*

SECTION 1. The Assessor in each township shall make and deliver to the County Auditor of their respective counties at the time of making their annual assessment in the year 1885, a corrected list of all persons who served in the United States Army, Navy or Marine Corps during the war of 1812, Mexican war, and the war of the Rebellion, designating the rank, company, regiment, battery, or vessel in which they served, and their present residence, town and county, which several lists shall be returned with the assessors books to the County Auditor, who shall on or before the first day of June, 1885, certify to the Adjutant-General a true copy of said lists, alphabetically arranged.

SEC 2. The Adjutant-General on receipt of said lists from the County Auditors shall proceed to consolidate said lists alphabetically, and publish three thousand copies in book form as a Roster of the Ex-Soldiers, Sailors and Marines now residents of Iowa, three copies of which shall be furnished each post of the Grand Army of the Republic in the State of Iowa, one hundred copies to the State Library for exchange with other libraries, one copy to the office of each County Auditor in the State the remaining books to be retained by the Adjutant-General for distribution.

SEC. 3. There is hereby appropriated the sum of two thousand dollars, or so much thereof as may be necessary for the purposes named in this act, and all warrants against said appropriation shall be drawn by the Auditor of the State upon the State Treasurer upon the certificate of the Adjutant-General.

Approved April 5, 1884.

## JOINT RESOLUTION.

*By the Senate, and House Concurring:*

*Resolved*, That the copies of lists of Ex-Soldiers and Marines authorized by Section 2, Chapter 165, laws of the 20th General Assembly, to be retained by the Adjutant-General for distribution, be when published equally distributed among the members of this General Assembly, and that the printing and binding required by the aforesaid chapter shall be done by the State Printer and State Binder as other State printing and binding is done. Provided, that the Adjutant-General reserve three hundred copies for use of such Grand Army posts as may hereafter be organized.

It was unfortunate for the accuracy of this book that the law assigned the duty of collecting the material for it to the assessors. These officers were already overburdened with the labor of gathering data for the census and in many cases were not able to perform the unusual amount of work required of them during that year. Had the law provided that posts of the Grand Army of the Republic should make details to collect the information, they would have selected men especially adapted to the work, who by giving it their exclusive attention could have done it more accurately.

The lists as first received reported men in regiments that never existed, and in companies represented by every letter of the alphabet. In correcting errors, Assessors and Auditors have kindly given me their aid and have labored earnestly that the State might finally present to its resident soldiers a list of their comrades as nearly correct as it was possible to make it. Very many newspapers have published lists furnished by their county auditors, thus doing much toward correcting errors. To the end that greater accuracy might be assured, nearly 7,000 inquiries have been sent directly to soldiers, every obtainable list made by any State has been consulted, and much correspondence had with the departments at Washington, and the Adjutants-General of other States. The firm faith of every man in the legibility of his own handwriting has caused much trouble. The fact that a person writing a name with which he is himself familiar cannot understand why it is not perfectly clear to any one else, was another trouble. A third source of difficulty was the reluctance with which soldiers answered inquiries, very many regarding their military record as a thing no one had a right to inquire into. Not a few thought the inquiries were prompted by some secret agency of the pension department.

Of the books that will be sent to the Grand Army posts, in one copy, blank leaves will be found for the insertion of any new names or changing any not correctly reported.

W. L. ALEXANDER,  
*Adjutant General.*
